Amyl Nitrite nasal inhalation

MEDICATION GUIDE

NOTE: This sheet is a summary. It may not cover all possible information. If you have questions about this medicine talk to your doctor, pharmacist, or health care provider.

What is this medicine?

AMYL NITRITE (AM il NYE trate) is used to relieve chest pain caused by angina.

This medicine may be used for other purposes; ask your health care provider or pharmacist if you have questions.

How should I use this medicine?

This medicine is for inhalation. Do not take by mouth. Follow the directions on the prescription label. Use this medicine at the first sign of an angina attack (chest pain or tightness). Do not remove the woven covering on the glass ampule. Crush the ampule between the fingers and with the patient in a sitting position, pass in front of the nose several times for inhalation of the vapor. Remain in a sitting position after use. The dose may be repeated in 3 to 5 minutes if needed for pain relief. If there is still no relief after a second dose, seek medical attention. Do not use this medicine more often than directed.

Talk to your pediatrician regarding the use of this medicine in children. Special care may be needed.

Overdosage: If you think you have taken too much of this medicine contact a poison control center or emergency room at once.

NOTE: This medicine is only for you. Do not share this medicine with others.

What if I miss a dose?

This does not apply. This medicine is only used as needed.

What should I tell my health care provider before I take this medicine?

They need to know if you have any of these conditions:

- Anemia
- Glaucoma
- Head injury, recent stroke, or bleeding in the brain
- Low blood pressure
- An unusual or allergic reaction to amyl nitrite, other medicines, foods, dyes, or preservatives
- Pregnant or trying to get pregnant
- Breast-feeding

What may interact with this medicine?

Do not take this medicine with any of the following medications:

- Medicines used to treat erectile dysfunction like sildenafil, tadalafil, and vardenafil

This medicine may also interact with the following medications:

- Alcohol

This list may not describe all possible interactions. Give your health care provider a list of all the medicines, herbs, non-prescription drugs, or dietary supplements you use. Also tell them if you smoke, drink alcohol, or use illegal drugs. Some items may interact with your medicine.

What side effects may I notice from receiving this medicine?

Side effects that you should report to your doctor or health care professional as soon as possible:

- Bluish discoloration of lips, fingernails, or palms of hands
- Fast, slow, or irregular heartbeat, palpitations, chest pain
- Low blood pressure
- Shortness of breath
- The feeling of extreme pressure in the head
- Unusually weak or tired

Side effects that usually do not require medical attention (report to your doctor or health care professional if they continue or are bothersome):

- Dizziness
- Flushing of the face and neck
- Headache
This list may not describe all possible side effects. Call your doctor for medical advice about side effects. You may report side effects to FDA at 1-800-FDA-1088.

What should I watch for while using this medicine?
Check your heart rate and blood pressure regularly while you are using this medicine. Ask your doctor or health care professional what your heart rate and blood pressure should be and when you should contact him or her.
You may get drowsy or dizzy. Do not drive, use machinery, or do anything that needs mental alertness until you know how this drug affects you. Do not stand or sit up quickly, especially if you are an older patient. This reduces the risk of dizzy or fainting spells. Alcohol can make you more drowsy and dizzy. Avoid alcoholic drinks.

Where should I keep my medicine?
Keep out of reach of children.
Store in the refrigerator between 2 and 8 degrees C (36 and 46 degrees F). The contents of the capsule are flammable. Protect from light. Keep container tightly closed. Throw away any unused medicine after the expiration date.

NOTE: This sheet is a summary. It may not cover all possible information. If you have questions about this medicine, talk to your doctor, pharmacist, or health care provider.
