Bacitracin; Hydrocortisone; Neomycin; Polymyxin B topical ointment

MEDICATION GUIDE

NOTE: This sheet is a summary. It may not cover all possible information. If you have questions about this medicine talk to your doctor, pharmacist, or health care provider.

What is this medicine?

BACITRACIN; HYDROCORTISONE; NEOMYCIN; POLYMIXIN B (bass i TRAY sin; hye droe KOR ti sone; nee oh MYE sin; pol i MIX in bee) helps to reduce swelling, redness, and itching of the skin. It is also used to treat skin infections.

This medicine may be used for other purposes; ask your health care provider or pharmacist if you have questions.

How should I use this medicine?

This medicine is for external use only. Do not take by mouth. Follow the directions on the prescription label. Wash your hands before and after use. Apply a thin film of medicine to the affected area. Do not cover with a bandage or dressing unless your doctor or health care professional tells you to. Do not use on healthy skin or over large areas of skin. Do not get this medicine in your eyes. If you do, rinse out with plenty of cool tap water. It is important not to use more medicine than prescribed. Do not use your medicine more often than directed. Talk to your pediatrician regarding the use of this medicine in children. Special care may be needed.

Overdosage: If you think you have taken too much of this medicine contact a poison control center or emergency room at once.

NOTE: This medicine is only for you. Do not share this medicine with others.

What if I miss a dose?

If you miss a dose, use it as soon as you can. If it is almost time for your next dose, use only that dose. Do not use double or extra doses.

What should I tell my health care provider before I take this medicine?

They need to know if you have any of these conditions:

- Any active infection including active cold sores
- Kidney disease
- Large areas of burned or damaged skin
- Skin wasting or thinning
- An unusual or allergic reaction to bacitracin, hydrocortisone, neomycin, polymyxin B, corticosteroids, other medicines, foods, dyes, or preservatives
- Pregnant or trying to get pregnant
- Breast-feeding

What may interact with this medicine?

Interactions are not expected. Do not use any other skin products without telling your doctor or health care professional.

This list may not describe all possible interactions. Give your health care provider a list of all the medicines, herbs, non-prescription drugs, or dietary supplements you use. Also tell them if you smoke, drink alcohol, or use illegal drugs. Some items may interact with your medicine.

What side effects may I notice from receiving this medicine?

Side effects that you should report to your doctor or health care professional as soon as possible:

- Allergic reactions like skin rash, itching or hives, swelling of the face, lips, or tongue
- Red, itchy, dry scaly skin at the affected site
- Swelling at the affected site

Side effects that usually do not require medical attention (report to your doctor or health care professional if they continue or are bothersome):

- Burning or stinging
- Loss of skin color
• Streaks in the skin

This list may not describe all possible side effects. Call your doctor for medical advice about side effects. You may report side effects to FDA at 1-800-FDA-1088.

What should I watch for while using this medicine?

Tell your doctor or health care professional if your symptoms do not get better within one week. Tell your doctor or health care professional if you are exposed to anyone with measles or chickenpox, or if you develop sores or blisters that do not heal properly.

To prevent the spread of infection, do not share skin products, or share towels and washcloths with anyone else. Throw away any unused skin ointment.

Where should I keep my medicine?

Keep out of the reach of children.

Store between 15 and 25 degrees C (59 and 77 degrees F). Do not freeze. Throw away any unused medicine after the expiration date.

NOTE: This sheet is a summary. It may not cover all possible information. If you have questions about this medicine, talk to your doctor, pharmacist, or health care provider.
