Balsam Peru, Castor Oil, Trypsin topical ointment
MEDICATION GUIDE

NOTE: This sheet is a summary. It may not cover all possible information. If you have questions about this medicine talk to your doctor, pharmacist, or health care provider.

What is this medicine?
CASTOR OIL; PERU BALSAM; TRYPsin [KAS tor oil; puh R00 BAWL suhm; TRIP sin] is used to promote healing and treat certain types of skin ulcers and wounds.

This medicine may be used for other purposes; ask your health care provider or pharmacist if you have questions.

How should I use this medicine?
This medicine is for external use only. Follow the directions on the prescription label. Wash your hands before and after applying. Apply a thin film to the affected area. The wound may be left uncovered or bandaged as directed by your doctor or health care professional. Do not get the ointment in your eyes. If you do, rinse out with plenty of cool tap water. Do not use this medicine more often than directed. Do not stop using this medicine except on the advice of your doctor or health care professional.

Talk to your pediatrician regarding the use of this medicine in children. Special care may be needed.

Overdosage: If you think you have taken too much of this medicine contact a poison control center or emergency room at once.

NOTE: This medicine is only for you. Do not share this medicine with others.

What if I miss a dose?
If you miss a dose, use it as soon as you can. If it is almost time for your next dose, use only that dose. Do not use double or extra doses.

What should I tell my health care provider before I take this medicine?
They need to know if you have any of these conditions:
• An unusual or allergic reaction to balsam peru; castor oil; trypsin, other medicines, foods, dyes, or preservatives
• Pregnant or trying to get pregnant
• Breast-feeding

What may interact with this medicine?
Do not use this medicine with any of the following medications:
• Silver sulfadiazine

This medicine may also interact with:
• Get advice before using other skin products on the same site

This list may not describe all possible interactions. Give your health care provider a list of all the medicines, herbs, non-prescription drugs, or dietary supplements you use. Also tell them if you smoke, drink alcohol, or use illegal drugs. Some items may interact with your medicine.

What side effects may I notice from receiving this medicine?
Side effects that you should report to your doctor or health care professional as soon as possible:
• Allergic reactions like skin rash, itching or hives, swelling of the face, lips, or tongue
