MEDICATION GUIDE

NOTE: This sheet is a summary. It may not cover all possible information. If you have questions about this medicine talk to your doctor, pharmacist, or health care provider.

What is this medicine?

Clioquinol; Hydrocortisone (klye oh KWIN ole; hye droe KOR ti sone) is used to treat skin infections and eczema.

This medicine may be used for other purposes; ask your health care provider or pharmacist if you have questions.

How should I use this medicine?

This medicine is for external use only. Do not take by mouth. Follow the directions on the prescription label. Wash your hands before and after use. Apply a thin film of medicine to the affected area. Do not cover with a bandage or dressing. Do not get this medicine in your eyes. If you do, rinse your eyes with plenty of cool water. Do not use your medicine more often than directed. Finish the full course prescribed by your doctor or health care professional even if you think you are better. Do not skip doses or stop your medicine early.

Talk to your pediatrician regarding the use of this medicine in children. Special care may be needed.

Overdosage: If you think you’ve taken too much of this medicine contact a poison control center or emergency room at once.

Overdosage: If you think you have taken too much of this medicine contact a poison control center or emergency room at once.

NOTE: This medicine is only for you. Do not share this medicine with others.

What if I miss a dose?

If you miss a dose, use it as soon as you can. If it is almost time for your next dose, use only that dose. Do not use double or extra doses.

What should I tell my health care provider before I take this medicine?

They need to know if you have any of these conditions:

- Skin infection like tuberculosis or viral infection (herpes)
- Thyroid disease
- An unusual or allergic reaction to hydrocortisone, clioquinol, iodine, other medicines, foods, dyes, or preservatives
- Pregnant or trying to get pregnant
- Breast-feeding

What may interact with this medicine?

Interactions are not expected. Do not use any other skin products on the affected area without asking your doctor or health care professional.

This list may not describe all possible interactions. Give your health care provider a list of all the medicines, herbs, non-prescription drugs, or dietary supplements you use. Also tell them if you smoke, drink alcohol, or use illegal drugs. Some items may interact with your medicine.

What side effects may I notice from receiving this medicine?

Side effects that you should report to your doctor or health care professional as soon as possible:

- Allergic reactions like skin rash, itching or hives, swelling of the face, lips, or tongue

Side effects that usually do not require medical attention (Report these to your doctor or health care professional if they continue or are bothersome.):

- Skin irritation like redness, itching, or stinging

This list may not describe all possible side effects. Call your doctor for medical advice about side effects. You may report side effects to FDA at 1-800-FDA-1088.

What should I watch for while using this medicine?
Tell your doctor or healthcare professional if your symptoms do not start to get better or if they get worse. Do not get this medicine in your eyes. If you do, rinse out with plenty of cool tap water.

**Where should I keep my medicine?**

Keep out of the reach of children.

Store at room temperature between 15 and 30 degrees C (59 and 86 degrees F). Throw away any unused medicine after the expiration date.

**NOTE:** This sheet is a summary. It may not cover all possible information. If you have questions about this medicine, talk to your doctor, pharmacist, or health care provider.
