What is this medicine?

DIETHYLPROPION [dye eth il PROE pee on] decreases your appetite. It is used with a reduced calorie diet and exercise to help you lose weight. This medicine is only meant to be used for a few weeks.

This medicine may be used for other purposes; ask your health care provider or pharmacist if you have questions.

How should I use this medicine?

Take this medicine by mouth with a glass of water. Follow the directions on the prescription label. Take this medicine 1 hour before meals. If a meal is missed, do not take that dose. An additional tablet may be taken in the mid evening if needed for night time hunger. Do not take your medicine more often than directed.

Talk to your pediatrician regarding the use of this medicine in children. Special care may be needed. While this medicine may be prescribed for children as young as 16 years for selected conditions, precautions do apply.

Overdosage: If you think you have taken too much of this medicine contact a poison control center or emergency room at once.

NOTE: This medicine is only for you. Do not share this medicine with others.

What if I miss a dose?

If you miss a dose, take a dose as soon as you can with the next meal. If it is almost time for your next dose, take only that dose. Do not take double or extra doses.

What should I tell my health care provider before I take this medicine?

They need to know if you have any of these conditions:
- Agitation
- Glaucoma
- High blood pressure
- History of drug dependence or substance abuse
- Hyperthyroid
- Kidney or liver disease
- Lung disease
- Valvular heart disease
- An unusual or allergic reaction to diethylpropion, other medicines, foods, dyes, or preservatives
- Pregnant or trying to get pregnant
- Breast-feeding

This list may not describe all possible side effects. Call your doctor for medical advice about side effects. You may report side effects to FDA at 1-800-FDA-1088.

Where should I keep my medicine?
Keep out of the reach of children. This medicine can be abused. Keep your medicine in a safe place to protect it from theft. Do not share this medicine with anyone. Selling or giving away this medicine is dangerous and against the law.

Store at room temperature below 30 degrees C (86 degrees F). Protect from heat. Keep container tightly closed. Throw away any unused medicine after the expiration date.

NOTE: This sheet is a summary. It may not cover all possible information. If you have questions about this medicine, talk to your doctor, pharmacist, or health care provider.

What should I watch for while using this medicine?
Visit your doctor or health care professional for regular checks on your progress. You need to closely monitor your weight loss. If your rate of weight loss slows down or stops, you may need to stop the medicine, and restart after a time without the medicine.

You may get dizzy. Do not drive, use machinery, or do anything that needs mental alertness until you know how this medicine affects you. Do not stand or sit up quickly, especially if you are an older patient. This reduces the risk of dizzy or fainting spells. Alcohol may increase dizziness. Avoid alcoholic drinks.
