Miconazole aerosol powder or liquid
MEDICATION GUIDE

What is this medicine?
MICONAZOLE (mi KON a zole) is an antifungal medicine. It is used to treat certain kinds of fungal or yeast infections of the skin.

This medicine may be used for other purposes; ask your health care provider or pharmacist if you have questions.

How should I use this medicine?
This medicine is for external use only. Do not take by mouth. Follow the directions on the label. Wash hands before and after use. Cleanse and dry affected area thoroughly. Shake well. Spray on the affected area (or into socks and shoes). Do not breathe in the medicine. Do not use your medicine more often than directed. Use this medicine for the full amount of time recommended on the package or by your doctor or health care professional even if you begin to feel better. Do not use for more than 4 weeks without advice.

Talk to your pediatrician regarding the use of this medicine in children. While this medicine may be prescribed for children as young as 2 years for selected conditions, precautions do apply.

Overdosage: If you think you have taken too much of this medicine contact a poison control center or emergency room at once.

NOTE: This medicine is only for you. Do not share this medicine with others.

What if I miss a dose?
If you miss a dose, use it as soon as you can. If it is almost time for your next dose, use only that dose. Do not use double or extra doses.

What should I tell my health care provider before I take this medicine?
They need to know if you have any of these conditions:

- Diabetes
- HIV or AIDS
- Immune system problems
- Other chronic health condition
- Recent chemotherapy treatments
- An unusual or allergic reaction to miconazole, other medicines, foods, dyes or preservatives
- Pregnant or trying to get pregnant
- Breast-feeding

What may interact with this medicine?
Interactions are not expected. Do not use any other skin products on the affected area without asking your doctor or health care professional.

This list may not describe all possible interactions. Give your health care provider a list of all the medicines, herbs, non-prescription drugs, or dietary supplements you use. Also tell them if you smoke, drink alcohol, or use illegal drugs. Some items may interact with your medicine.

What side effects may I notice from receiving this medicine?
Side effects that you should report to your doctor or health care professional as soon as possible:

- Allergic reactions like skin rash, itching or hives, swelling of the face, lips, or tongue
- Increased inflammation, redness, or pain at the affected area
- Mild skin irritation, burning, or itching at the affected area

Side effects that usually do not require medical attention (report to your doctor or health care professional if they continue or are bothersome):

- Overdosage: If you think you have taken too much of this medicine contact a poison control center or emergency room at once.

NOTE: This medicine is only for you. Do not share this medicine with others.

NOTE: This medicine is only for you. Do not share this medicine with others.

What should I watch for while using this medicine?
Tell your doctor or healthcare professional if your symptoms do not start to get better or if they get worse. You may have a skin infection that does not respond to this medicine.

Do not spray near your eyes. If you do get any in your eyes, rinse out with plenty of cool tap water.

If you are using this medicine for 'jock itch' be sure to dry the groin completely after bathing. Do not wear underwear that is tight-fitting or made from synthetic fibers like rayon or nylon. Wear loose-fitting, cotton underwear.

If you are using this medicine for athlete’s foot be sure to dry your feet carefully after bathing, especially between the toes. Do not wear socks made from wool or synthetic materials like rayon or nylon. Wear clean cotton socks and change them at least once a day, change them more if your feet sweat a lot. Also, try to wear sandals or shoes that are well-ventilated.

Where should I keep my medicine?

Keep out of the reach of children.
Store at room temperature between 15 and 30 degrees C (59 and 86 degrees F). Throw away any unused medicine after the expiration date. Some products may contain alcohol or have other flammable components. Do not use while smoking or near heat or flame.

NOTE: This sheet is a summary. It may not cover all possible information. If you have questions about this medicine, talk to your doctor, pharmacist, or health care provider.
