What is this medicine?

SODIUM TETRADECYL SULFATE is used to improve the appearance of varicose veins.

This medicine may be used for other purposes; ask your health care provider or pharmacist if you have questions.

How should I use this medicine?

This medicine is for injection into a vein. It is usually given by a health care professional in a hospital or clinic setting.

Talk to your pediatrician regarding the use of this medicine in children. Special care may be needed.

Overdosage: If you think you have taken too much of this medicine contact a poison control center or emergency room at once.

NOTE: This medicine is only for you. Do not share this medicine with others.

What if I miss a dose?

This does not apply.

What should I tell my health care provider before I take this medicine?

They need to know if you have any of these conditions:

- Diabetes
- Heart or blood vessel disease
- History of cancer

What may interact with this medicine?

- Female hormones, like estrogens or progestins and birth control pills, patches, rings, or injections

This list may not describe all possible interactions. Give your health care provider a list of all the medicines, herbs, non-prescription drugs, or dietary supplements you use. Also tell them if you smoke, drink alcohol, or use illegal drugs. Some items may interact with your medicine.

What side effects may I notice from receiving this medicine?

Side effects that you should report to your doctor or health care professional as soon as possible:

- Allergic reactions like skin rash, itching or hives, swelling of the face, lips, or tongue
- Breathing problems

Side effects that usually do not require medical attention (report to your doctor or health care professional if they continue or are bothersome):

- Headache
- Minor skin discoloration at site where injected
- Nausea, vomiting
- Temporary pain, itching, or tingling at site where injected

This list may not describe all possible side effects. Call your doctor for medical advice about side effects. You may report side effects to FDA at 1-800-FDA-1088.

What should I watch for while using this medicine?

Your condition will be closely monitored during use of this medicine.
Follow all of the instructions from your health care professional. You may need to wear elastic compression stockings after the procedure.

**Where should I keep my medicine?**

This drug is given in a hospital or clinic and will not be stored at home.

**NOTE:** This sheet is a summary. It may not cover all possible information. If you have questions about this medicine, talk to your doctor, pharmacist, or health care provider.
